PROFESSIONAL SUMMARY

Senior Software Engineer with 9 years of experience designing and developing scalable enterprise web applications using Java, Spring Boot, Angular, REST APIs, Hibernate, and MySQL.

Strong experience in healthcare and pharmacy-domain platforms, including patient portals, role-based systems, analytics platforms, and microservice-based applications. Skilled in backend service development, frontend integration, API design, authentication systems, and enterprise application architecture.

Experienced in building full-stack applications using Angular, AngularJS, React, Spring ecosystem, and Python Flask. Comfortable working in Agile environments, debugging production systems, improving application performance, and collaborating across cross-functional teams.

Currently focused on AI-assisted software development, scalable backend systems, developer productivity tooling, and modern application architectures.

TECHNICAL SKILLS

- Languages: Java, JavaScript, SQL, Python
- Backend: Spring Boot, Spring MVC, Spring Security, Hibernate, JPA, REST APIs, Microservices, Flask
- Frontend: React , Angular, AngularJS, HTML5, CSS3, JavaScript, jQuery
- Database: MySQL, Stored Procedures
- Tools & Platforms:Git, Maven, Webpack, VS Code, Eclipse, Postman

PROFESSIONAL EXPERIENCE

HealthAsyst | Technical Lead

Jul 2018 – Present

Worked on healthcare and pharmacy-domain enterprise platforms including patient portals, pharmacy systems, analytics dashboards, and microservice-based applications.

• Designed and developed RESTful APIs using Spring Boot, Hibernate, and Java

• Built reusable frontend modules using Angular, AngularJS, and React

• Implemented authentication, authorization, and role-based access systems

• Integrated frontend applications with backend REST services and enterprise workflows

• Contributed to scalable microservice-based healthcare applications

• Developed analytics-focused web applications using React and Python Flask

• Leveraged GenAI-assisted development workflows to improve engineering productivity while preserving business-critical logic and application quality

• Participated in Agile development, sprint planning, production support, and cross-functional collaboration

• Improved maintainability through reusable UI components and modular backend services

Tech Stack:

Java, Spring Boot, Spring MVC, Angular, AngularJS, React, Python Flask, Hibernate, MySQL, Maven, Git

mscripts Systems India Pvt. Ltd. | Associate Software Engineer

Nov 2017 – May 2018

Worked on pharmacy management and communication platforms serving healthcare and pharmacy clients.

• Enhanced AngularJS-based web applications and reusable UI modules

• Implemented backend integrations and business workflows

• Worked on SQL stored procedures and database operations

• Fixed production defects and implemented client-specific enhancements

• Contributed to responsive web interfaces and API integrations

Tech Stack:

Java, Spring MVC, AngularJS, MySQL, HTML5, CSS3

keyfalcon Solutions Pvt. Ltd. | Associate Software Engineer

Jun 2016 – Nov 2017

Worked on e-commerce and booking platforms using Angular and Spring Boot technologies.

• Developed frontend modules using Angular and CSS

• Implemented REST APIs and service-layer functionality

• Built DAO layers using Hibernate and JPA

• Worked on frontend-backend integrations and API communication

• Participated in application architecture and development planning

Tech Stack:

Java, Spring Boot, Angular, Hibernate, MySQL

EDUCATION

Master of Computer Applications (MCA)

Sikkim Manipal University — 2014

Bachelor of Science (Physics)

Dibrugarh University — 2011

AI & MODERN ENGINEERING INTERESTS

• AI-assisted software development

• LLM-integrated applications

• Prompt engineering

• Developer productivity tooling

- Backend systems for AI applications
- API-first architecture
- AI-enabled analytics platforms
